

## Company Profile

Bondline was established in 1986 as an individually run company distributing static control products. The company remains a family run business located in the South West of England with 15 employees. In 2015, Bondline invested in a 14000 sq ft storage warehouse where we stock our full range of ESD products. We stock a full range of items to ensure quick deliveries and efficient service. Since establishment Bondline has exported to over 40 countries throughout the world.
