

# Anti-Static Document Holders

DOC2, DOC3

## Description

Open top clear, permanent static dissipative ring binder inserts with reinforced spine. Made of low-density polypropylene for use in ESD sensitive areas and clean level environments. Designed for storing instructions, checklists or any document in areas where static is controlled. The document holders feature an ESD protective symbol on the spine for easy identification. Unlike most ESD Document Holders, the material is permanent static-dissipative, with a permanent shelf life. Available in A4 and A3 sizes in packs of 100pcs.

A3

A4

Product Code	Description
DOC2	A3 - Pack of 100pcs
DOC3	A4 - Pack of 100pcs

## Specifications

Material	ESD Polypropylene (PP)
Thickness	60µ
Colour	Transparent
Surface Aspect	Orange Peel
Haze	<5%
Glance	<150 SKT
Surface Resistance	< 10 <sup>(11)</sup> Ω
Field	<100v within 2 seconds
