

Re-Usable Heel Strap

HS3

Description

This heel strap has detachable grounding ribbons which can be discarded or washed after one-off use. The heel strap can then be used again and again. This unique strap has a 1 meg-ohm safety resistor.

Construction And Material

Constructed using a strip of two-layered rubber sheet, insulative white and conductive black, attached to 1" garter forming heel cup, with built-in one meg ohm resistor on plastic connector, joined in series with the conductive tab, and assembled with separate hook and loop tape for adjustable feature.

Electrical Properties

Surface Resistivity:

Black rubber surface: 8 x 10 ohms/square

White rubber surface: 1 x 10 ohms/square

Product Resistance Reading: 1 meg ohm \pm 20%

Conductive tab: 160 ohms/inch (max.)

DCR50 - Disposable conductive ribbons (Pack of 50). Standard colour is blue.

Colour

Available in black/white rubber, black plastic connector, and royal blue conductive tab with silver yarn. Elastic garter and hook and loop tape's colours are available upon request.
