

ESD Clipboard

CBOARD

Description

An essential office item suitable for holding A4, A5 and A6 sized documents. Standard office clipboards have the potential to cause static damage when near static sensitive devices; they are an often overlooked piece of equipment in static controlled workstations. ESD clipboards, on the other hand, are produced with anti-static raw material, non-coating surface, to make it ESD permanent.

Our ESD clipboards are durable and lightweight. In the bottom corner of the clipboard features the ESD warning symbol for easy identification of items susceptible to ESD. ESD clipboards are ideal for use in ESD sensitive areas and clean level environment such as microelectronics, biological and medical field, etc.

Specifications	
Material	ESD PP
Surface Resistance	$10^5 - 10^9 \Omega \text{ CM}$
Triboelectric Voltage	<100V
Decay Time	1000v/100v<1.0s
Size	A4
Colour	Black
