

ESD Tape Dispenser

TAPEDISP

Description

ESD Tape Dispensers are designed for use in an office or an EPA. This product is produced with anti-static raw material, non-coating surface, to make it ESD permanent. For use in ESD sensitive areas and clean level environment such as microelectronics, biological and medical field, etc.

Each tape dispenser features the ESD symbol to allow for easy identification of items that are susceptible to ESD. This essential office item is a great alternative to standard tape dispensers due to its anti-static properties. Conforms with BS EN-61430-5 for safe use in Electrostatic Protected Areas.
