

120mm ESD Brush

BR4

Description

This small upright brush has anti-static 0.010" static dissipative Nylon bristle and a static-neutral hardwood handle. This handy brush style, also known as the keyboard brush, has a 2 x 6 row pattern, with a 1/2" trim, and a brush face of 7/8" x 5/16". Ideal for detail cleaning, such as printed circuit boards and SMT assemblies. Also great as a scrubbing and dusting brush that works well for getting into tight areas.

Key Features

- Ideal for detail cleaning, such as printed circuit boards and SMT assemblies.
- Strong, static-neutral hardwood handle.
- Manufactured with static-dissipative Nylon bristle.
- Brush Length: 120mm. Brush Width: 25mm.
- Bristles (H/W/L): 13 x 8 x 25mm.
- Great as a scrubbing and dusting brush.
- The brushes are approved to BS EN 61340-5.

This brush allows the safe cleaning of ESD sensitive assemblies without generating any harmful static charges.
