

COVID-19 Response Plan - Bondline Electronics Limited.

Bondline are continuing to monitor the situation regarding the COVID-19 Corona Virus through the World Health Organisation and Public Health England to minimize the effect on our business and staff.

Internally, we are following guidelines and preventative measures.

As part of our risk management we are working closely with our supply chain. We confirm we have no supply shortage or high threat to our product supply.

The COVID-19 situation around the world continues to evolve at a very fast pace and is having a global impact affecting our people and our industry. Bondline has implemented enhanced safety protocol designed to protect the wellbeing and safety of our people and those with whom they encounter.

We continually assess our site and review the safety procedures that are in place to ensure they are effective in helping to prevent the spread of Coronavirus in our workplace. In order to support our internal programme.

V. Blizzard

Director
Bondline Electronics Limited
