

Company Profile – “A trusted UK supplier of ESD products since 1986”

Bondline was established in 1986 as an individually run company distributing static control products. The company remains a family run business located in the South West of England with 15 employees. In 2015, Bondline invested in a 14000 sq. ft. storage warehouse where we stock our full range of ESD products. We stock a full range of items to ensure quick deliveries and efficient service.

Since establishment Bondline has exported to over 40 countries throughout the world.

Directors, Victoria and Sam Blizzard at Productronica 2013.

Our Aims and Goals

- Continue to offer extremely high-quality products at competitive prices.
- Sustain long term customer and supplier relationships.
- Ensure our motivated, small friendly team offer a personal, quick, knowledgeable service.
- Continuous research and innovative product development.

**1986**

Bondline was established in 1986 as an individual privately run company distributing static control products.

**2015**

In 2015, Bondline invested in a 14,000 sq ft storage warehouse where we stock our full range of ESD products.

**PRESENT**

The company remains a family run business located in the South West of England with about 15 employees.

What Do We Do?

Static Electricity has been an industrial problem for centuries.

Today, Electro Static Discharge (ESD) impacts productivity and reliability in nearly every aspect of today's electronics environment.

The importance is understanding what causes and effects it can have. Damage can be a result of poor handling of the sensitive devices which can prove extremely hazardous and very costly.

Bondline provide static control products and expert advice to ensure people and products are grounded to eliminate static. All ESD products conform to BS- EN-61340-5 standards.

Bondline's ESD Matting

Bondline have a high quality range of ESD Matting to suit all requirements. We offer bespoke customised matting on request. Conforms to BS- EN-61340-5.

[Click to view

Bondline's range of anti-static mats and bench matting is designed to keep you grounded when working with static-sensitive devices. We have a wide variety of ESD matting available including:

- ESD rubber or vinyl Bench Material, smooth or textured finish. Variety of colour options.
- ESD rubber or vinyl Floor Material.
- ESD Anti Fatigue Mats.

Bondline's ESD Bags and Packaging

Bondline stock a full range of ESD Bags to ensure full protection of static sensitive components. Conforms to BS- EN-61340-5.

In 2015, Bondline formed an exclusive partnership as an IBM approved supplier.

We stock a variety of ESD bags / packaging including the following:

- Metallised Shielding Bags (with open top or loc top seal).
- Pink Anti Static Bags (with open top or loc top seal).
- Moisture Barrier Bags.
- Pink Anti Static and Metallised Bubble Bags.
- Bespoke packaging/ Lay flat tubing/ Films/ Bubble-wrap.

Bondline's ESD Flooring

ESD Flooring is an essential grounding solution that many businesses' use to prevent electrostatic discharge in their static safe environments. ESD Floor Matting is used to ensure people and products are grounded.

Bondline's ESD Flooring includes:

- Interlocking ESD Floor Tiles.
- ESD Permanent Flooring.
- ESD Rubber Floor Material.
- Heavy Duty Conductive Floor Matting.
- Anti-Fatigue Matting.
- Vinyl Floor Matting and more...

Bondline's Test Instruments

Bondline offer an extensive and affordable range of test instruments, all CE approved and conform to 89/336/EEC. Bondline have designed and manufactured many of the instruments.

All products can be supplied with custom logos / artworks:

- Wrist Strap Testers / Stations.
- Constant Monitors.
- Surface Resistivity Meters.
- Field Meters.
- Work Checks.
- Charge Plate .
- Static Locators.
- Floor Test Kits.

Bondline's ESD Grounding

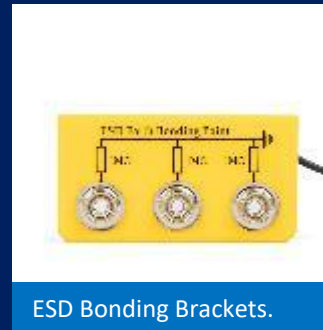

ESD Bonding Points are a simple and easy method of grounding personnel, ESD work bench, ESD matting and ESD flooring.

All grounding products are UK manufactured at Bondline, available in almost any combination. Configurations can include 4mm, 7mm, 10mm Stud, 4mm Banana Sockets, M5 Binding Post.

Can be produced with other resistance values. All can be made with custom printing / designs.

- Earth Bonding Plugs. (UK or EU plug).
- Earth Bonding Points, L-Shaped Brackets.
- Earth Facility Brackets.

Bondline's ESD-Safe Storage

Bondline have a full range of ESD containers, PCB racks, boxes, foam storage systems and Corstat products. Each ESD storage equipment conforms to BS- EN-61340-5 standards.

Nearly all bespoke requirements can be manufactured.
Bondline offer a variety of ESD-Safe Storage products including:

- Conductive PCB racks and picking bins.
- Conductive component boxes.
- Euro-stacking containers.
- Corstat products.
- ESD trolleys.
- ESD shelving, filing cabinets and more...

ESD Foot and Wrist Grounding

Bondline offer a comprehensive range of high-quality ESD footwear, wrist-straps, cords and heel-straps for personnel grounding. For primary grounding, ESD shoes and heel-straps should be used in conjunction with suitable static dissipative flooring.

All items can be manufactured to order. Products include:

- ESD Office Shoes.
- Wrist Straps.
- ESD Clogs.
- Straight and Coil Cords.
- ESD Trainers.
- Heel / Toe Grounders.

ESD Garments and Gloves

Full range of clothing and gloves, manufactured from static dissipative materials for use in ESD protected areas.
Bondline's ESD garments and gloves range include:

- Lab Coats and Lab Jackets.
- Polo shirts and T-shirts.
- Coated tip Gloves.
- ESD Caps.
- ESD Fleece.
- Plain Gloves.

Custom logos and designs available.

ESD Sprays, Waste & Cleaning

Bondline have an extensive product range of ESD sprays, cleaning equipment and waste disposal, to ensure safe cleaning within an Electrostatic Protected Area.

Bondline's ESD sprays, waste and cleaning products include:

- Floor Cleaner.
- Staticide Mat and Table Cleaner.
- Staticide Wipes.
- Staticide Hand Lotion.
- Antistatic General Purpose Spray.
- Conductive Waste Bins.
- ESD Vacuum Cleaner and ESD Dustpan & Broom.

Bondline's ESD Stationery & Office

Bondline's ESD stationery and office products have been specially manufactured to reduce and contain the risk of damaging sensitive components or devices. Products conform to the IEC-61340-1-5 International Standard.

Bondline's ESD Stationery and Office products include:

- ESD Tapes and Signs.
- ESD Pen Holder.
- ESD Tape Dispenser.
- ESD Ring Binders.
- ESD Letter Trays
- ESD Badge and Card Holder and more...

Bondline's ESD Ionizers

Bondline's ionizers eliminate the build-up of static charges on non-conductors, ensuring a static-free work area. Ionizers generate positive and negative ions which neutralize any static charges on insulating materials which cannot be grounded in the normal way. All ionizers are CE approved. Euro plug option is available on request.

Bondline's range of ionizers include:

- Bench Top Ionizers.
- Overhead Ionizers (3-fan and 4-fan).
- Zero Stat Gun.
- Premium Ion Gun and Controller.

ESD Workbenches & Chairs

Bondline offer an extensive range of ESD workbenches and chairs for your needs. Workbenches and chairs are the essential foundational items for setting up an Electrostatic Protected Area (EPA).

Bondline's ESD Workbenches and Chairs include:

- ESD Classic & Comfort Bench.
- ESD Suspended Drawer Units.
- Workbench Accessories (ESD Turntables & Lamps).
- ESD Square Tube Style Workbenches.
- Basic, Intermediate & Supreme ESD Chairs.
- Bespoke solutions available on request.

Hand Tools & Tweezers

Bondline offer a variety of hand tools and tweezers for sensitive electrical components that require high-precision and careful handling. We stock many intricate cutting tips and tweezer tips for different purposes and to ensure your requirements are fulfilled.

Bondline's anti-magnetic Hand Tools and Tweezers include:

- Cutters.
- Pliers.
- Tweezers.
- Piergiacomini Cutters and Pliers.

ESD Brushes and Swabs

Bondline offer a comprehensive range of brushes which allows the safe cleaning of ESD sensitive assemblies without generating any harmful charges. Bondline also offer electrostatic discharge cleaning swabs which are to be used in a cleanroom environment.

Bondline's ESD Brushes and Swabs include:

- ESD Nail Brush.
- ESD Toothbrushes.
- Horse Hair Brushes.
- ESD Swabs (Foam, Stick, Polyester).
- And many more...

Bespoke Specialist Products

At Bondline, we pride ourselves on being able to offer our customers bespoke specialist products. We offer a variety of bespoke products and solutions to help solve our customers' requirements and needs.

Bespoke customisation can include colours, sizes, special printing, embroidery and more, depending on the application. These bespoke options can enhance the company's branding/profile, provide a more premium, personal feel or solve specific requirements.

When creating a bespoke product, we ensure that it is tailored to the highest quality and produced to the customer's exact request.

Bespoke ESD Bags

Bondline's ESD bags can be customised in terms of colour, size, thickness and printing, depending on the customer's packaging requirements.

Previous packaging projects include:

- Bespoke printing.
- Customised colours, sizes and thicknesses.

Our ESD bags will always feature a ROHS compliant label on the outer packaging.

Bespoke ESD Foam

Bondline offer customisation for ESD foam including specialist die cut foam, size, thickness, CNC routing and water jet profiling.

We provide a range of different types of foam including black conductive, pink anti-static, blue static-dissipative and black closed cell (cleanroom) foams. Foams can be cut, stamped, layered, profiled or machined to produce economic trays or inserts to suit numerous packaging requirements.

All ESD Foams are manufactured in the UK.

[Click to view
ESD Foam.](#)

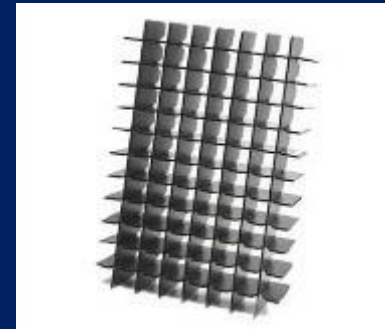

Bespoke Corstat Packaging

Bondline can provide specialist CAD drawing, bespoke manufacturing, Corstat board and conductive correx for Corstat packaging.

With a custom design service and exceptional customer support, you can see a real tangible impact on the success of your packing processes and costs.

It is also possible, if these Corstat packaging products do not suit your specific application, for bespoke sizes and configurations to be manufactured in any quantity to fulfil your individual requirements.

[Click to view
ESD Corstat.](#)

Bespoke Fibreboard Boxes

Bondline's fibreboard boxes can be specially designed with conductive fibreboard.

We are able to design and manufacture bespoke boxes, trays, divider sets and more to suit your requirements whilst also being able to offer a wide range of additional fittings and accessories such as steel reinforcements, stacking corners, cardholders and pulls, wooden runners, handles, handholds, riveted inserts and more.

All products in this range are manufactured from a unique grade of Resin impregnated Conductive Fibreboard, which is made from 100% recycled waste paper. This special board retains its static protective properties throughout its life and is both volume and surface conductive to $< 10^5$ Ohms.

By creasing and riveting we can make an infinite range of transport and tote boxes for storage, production line and transport by pallet deliveries or parcel carriers.

Bondline's Bespoke Matting

Bondline can offer a specialist cut to size on all matting including bench, floor and anti-fatigue matting. We can also provide printing on mats of your company's information, branding, etc. for a more personal touch. If you would like bespoke customisation, please make an enquiry.

Below are images showing the process of the customised bespoke matting being cut to measurement, rounding the corners and studding.

Bespoke ESD Testing

For Bondline's ESD testing products, we can offer private labelling, custom logos and colours on request. Additionally, we can also provide our test equipment with specific ranges to conform to many standards in the electronics industry. Some of the testing products Bondline can customise include ESD Work Check and Wrist Strap Tester.

On the right are some examples of the testing products Bondline have customised for customers.

Bespoke ESD Garments

Bondline's garments can be customised in terms of logos, embroidery and special colours on request. Bespoke garments can enhance your company's visibility when you are meeting clients or when people are visiting your workplace.

Example of Bondline's bespoke embroidery.

Bespoke black ESD polo shirt.

Bespoke red ESD polo shirt.

Bespoke red ESD lab coat.

Bespoke yellow ESD lab coat.

Bespoke ESD Grounding

Bondline's grounding products can be fully customised to suit your requirements. Grounding products that can be made bespoke include cords, wrist straps, bonding plugs and bonding brackets.

Wrist Straps and Coil Cords:

Our wrist straps and coil cords can include either a 4mm, 7mm or 10mm stud. Custom colours can be available on request for either wrist straps or coil cords. The colour options allow you to select a colour that's more preferable and suitable for your workspace or company's branding colours.

Bespoke ESD Grounding

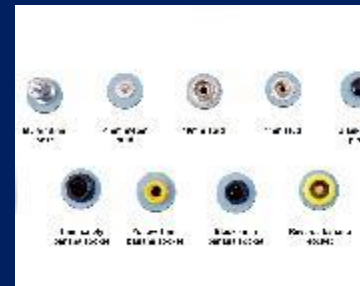

Bonding Plugs and Bonding Brackets:

We can specifically customise ESD Bonding Points to suit your requirements. We offer custom printing, logos, configurations, languages and other resistance values on request.

Custom Configurations for Bonding Plugs and Brackets:

For our bonding plugs and brackets we can offer various configurations to suit the customer's need depending on their factory set-up and grounding facilities. See examples below of configurations we offer, a bespoke bonding point we made and a custom printed plug printed in French we produced.

Bespoke ESD Bench Installation

Example of an ESD Bench installed at a customers premises. All ESD Benches are manufactured in the UK.

Why Choose Bondline For Your ESD Bench Requirements?

- We have a long-term partnership with a high quality leading UK manufacturer.
- We pride ourselves on quality, service and competitiveness.
- The current 80,000 sq. ft manufacturing facility is equipped for bespoke design and custom projects.

For expert advice on the best solution for your application, send us an enquiry and one of our specialists will be in touch very shortly to discuss your requirements.

Bespoke ESD Flooring Installation

An example of Static Dissipative Vinyl Flooring and of ESD Permanent Flooring that was installed at a customers premises.

Bondline can also provide installations of:
ESD Rubber / Vinyl Material, ESD Static Dissipative Tiles, Interlocking Tiles and Vinyl Sheets.

Benefits of Using Bondline For Your ESD Flooring Installation:

- Over 30 years' experience of installing ESD flooring.
- Advice on floor preparation and most appropriate material to use.
- Variety of materials to choose.
- Complete supply, deliver and install package.
- Installation by our recommended fitters with experience of floor installations.
- Test Certification.
- Annual testing/certification if required.

Bondline's ESD Training and Audits

Bondline can offer a comprehensive training facility, effective through personal involvement. This can be tailored to your requirements at your premises. This is ideal for production personnel, engineers, support staff and managers.

The training focuses on the causes of static generation, the effects of static discharge, and the materials and methods necessary for prevention and protection. The course content will reflect the facilities and current practice.

As well as ESD training we can also Audit your premises, we can offer our expertise in what products are needed for which area to ensure all areas are ESD Safe and working towards specific ESD Guidelines and Standards. Contact us today.
