

Anti-Static Bin Liners

BLNR, BLNR40

Description

Pink low tribo- charging bags to be used in waste bins. These anti-static bin liners are easy to apply to the waste bin and remove. Each liner is a clear, transparent pink and holds a good amount of waste disposal.

These anti-static liners help with disposing of waste in an EPA without the risk of electrostatic discharge. Non ESD packaging can generate high static voltage and needs to be eliminated from an EPA.

Product Code	Description	Capacity
BLNR	Small anti-static bin liners. (Pack of 100).	12L
BLNR40	Large anti-static bin liners. (Pack of 100).	40L

Features	Sizes (mm)	Thickness
Bags for 12 litres bins bags (folded flat)	300+200mm	60 micron
Bags for 40 litres bins bags (folded flat)	970x740mm (gusseted)	40 micron

Specifications	
Raw Material	Low Density Polythylene
Colour	Pink (other colours available)
ESD Properties	Low tribocharging
Heavy Metal	<100ppm
Standards	61340-5-1 and 94/64/CE directive related to packaging wastes.
