

ESD Waste Bins

WBINL

Description

High-quality ESD polypropylene plastic waste bins for use in assembly area or office. These waste bins allow for the safe disposal of waste without generating any static charge and are designed specifically for use in EPAs. The ESD logo offers easy identification with silk screen print ESD logo and lid push instruction in yellow. They are easy to clean and are available in 3 size options including 20, 40, 60 Litres. Ideally the bins are to be placed on an ESD floor or ESD floor mat to ensure path to ground; anti static bin liners will also help ensure no charge is generated.

Product Code	Description	Capacity
WBINL20	ESD Waste Bin 325 x 225 x 450mm with lid	20L
