

Leaving EPA Round Sign

SLVGRD

TECHNICAL DATASHEET

Description

ESD awareness round warning signs are an effective way of reminding everyone of the related procedures required to help eliminate ESD. These signs can be used for wall, door or floor mounting. The sign is 300mm in diameter, self-adhesive and supplied with a non-slip clear covering. The sign is printed in red and white as standard and features the ESD cautionary symbol.

These signs do not have any ESD properties and are therefore to be used outside of the EPA (EPA's entrance door, for example).

Features

- Round sign for the attention of leaving an EPA environment.
- Printed in red and white as standard.
- PVC plastic board, self-adhesive with a non-slip covering.
- 300mm in diameter.
- Can be used for wall, door or floor mounting.
- Features ESD cautionary symbol.
- Multi-language and other colours available on request.
- RoHS and REACH compliant.

Text Reads

YOU ARE NOW LEAVING THIS ESD PROTECTED AREA. ALL STATIC SENSITIVE ITEMS MUST BE IN SUITABLE PROTECTIVE PACKAGING.'

Notice
