

Bondline Electronics Limited **Russia And Ukraine Response Plan**

24.02.22

Rest assured, Bondline has a very strong supply chain and high stock levels of ESD consumables.

Since this morning's news, of Russia's invasion on the Ukraine, we do not know to what extent this could affect our supply chain or overseas shipping in regards to shipping between borders, as well as material productions globally.

As part of our risk management, we are working closely with our supply chain. We confirm we have no supply shortage or high threat to our product supply currently.

We cannot be certain lead times will not be impacted but rest assured our standard stock items remain at high levels and we will do all we can to ensure our supply chain remains unaffected.

V. Blizzard

Director
Bondline Electronics Limited
