

ESD Movable Drawer Units

TP-01/S TP-02/S

Description

Steel frame ESD movable drawer units are designed for safely storing and transporting tools, components, documents and personal belongings. The units can also be used as an additional workplace. ESD movable drawer units are suitable for use in Electrostatic Protected Areas (EPAs) where static is controlled. They are available in two options: 3 shelves or 4 shelves.

Key Features

- ⚡ Can be also used as an additional workplace
- ⚡ Steel frame drawer units have central lock and 360 mm telescoping drawers
- ⚡ Units have 4 rubber casters, 2 of which are with brakes
- ⚡ Excellent storage solution for components, tools, documents and personal belongings
- ⚡ Suitable for the electronics manufacturing industry
- ⚡ Load capacity per drawer: 30 kg
- ⚡ Available in two options
- ⚡ Compliant according to IEC-61340-1-5 International Standard

TP-01/S
(3 Shelves)

TP-02/S
(4 Shelves)

Compliant according to IEC-61340-1-5 International Standard
