ESD SAP Trolley

ESD-SAP-TROLLEY

Description

The ESD SAP Trolley is an ergonomic, easy-to-move trolley, ideal for easy transportation of tools and supplies. The trolley makes a great addition to the ESD TP Workbench, providing extra workspace and support. Equipped with four castors that turn (ø 100 mm), the trolley can be moved around the facility easily. The castors can be locked into place where needed, two of which have brakes. The ESD SAP Trolley is available in the standard size 700 x 500 mm which is supplied with the top shelf as a standard feature. A lower shelf and handle can be ordered on request separately; these additions can provide extra space and storage and help make the trolley easier to move. The height of the trolley can be easily adjusted with an Allen key between 650-900mm, which means that the trolley can be converted as required. The ESD SAP Trolley has a maximum loading capacity of 150 kg. It is easy to assemble and complaint according to IEC-61340-1-5 International Standard.

Compliant according to IEC-61340-1-5 International Standard

Key Features
