

ESD Pencil Case / Pouch

PCHESD

Description

ESD Pencil Case (PCHESD) for the effective storage of anti-static stationery such as pens, pencils, rubber bands and calculators within an Electrostatic Protected Area. Bondline's ESD pouches are made from static-safe materials (98% Polyester + 2% Conductive Yarn) that help to protect anti-static stationery inside of the pencil case and items surrounding the case. This product complies to the EN 61340-5-1 Standard.
