

# ESD File Basket

RBHOLDER

## Description

ESD File Basket from Bondline is made with ESD polypropylene (PP) for the safe use in Electrostatic Protected Areas (EPAs). They are lightweight, durable and have three separate holders for organised storage. Great for storing files, documents and books without the risk of static charge build-up. ESD file basket features yellow ESD protective symbol printed with text "ESD" on the front of the basket. As well as EPAs, they are suitable to use in clean level environments such as microelectronics, biological and medical fields and office areas.

## Key Features

- Surface resistance:  $10^{(5)} - 10^{(9)}$  Ohms
- Material: ESD Polypropylene (PP)
- ESD permanent
- Three separate holders for organised storage
- Colour: Black
- Excellent for storing and holding documents and files
- Yellow ESD protective symbol and text "ESD" printed on front of basket
- Durable and lightweight
- Suitable for EPAs, offices and clean level environments
- Slots easy into place
- Compliant according to IEC 61340-5-1 International Standard

## Meets the Following ESD Standards & Regulations:

-  RoHS compliant
-  REACH compliant
-  CE approved
-  IEC 61340-5-1

Properties	Typical Values
Surface Resistance	$10^{(5)} - 10^{(9)}$ Ohms
Decay Time	1000V-100V <1.0S
Material	ESD Polypropylene (PP)
Colour	Black

# Eliminate Costly Static Damage...

Whether you are experiencing unacceptable levels of damage in transit, need a specific cleanroom solution or simply don't know which ESD safe equipment is best for you, we can help!
