

ESD File Holder (Pack of 5)

DOCFA4

Description

A4-sized ESD file holder from Bondline is made with ESD PVC for safe use in Electrostatic Protected Areas (EPAs) and clean level environments (i.e. microelectronics, biological and medical field, etc.). They are great for storing A4-sized or smaller documents, instructions and checklists where static is controlled. ESD file holders feature a yellow ESD protective symbol printed on the front of the holder. ESD file holder is transparent and can be recycled. Blue / green reinforced spine for improved durability. Supplied in packs of 5. The material is permanent static-dissipative with a non-coating surface, giving it a permanent shelf life.

Key Features

- Surface resistance: $10^6 - 10^9$ Ohms
- Material: ESD PVC (Polyvinyl Chloride)
- Pack of 5
- Size: A4
- Colour: Transparent
- Recyclable
- Features ESD protective symbol printed in yellow
- Blue or green reinforced spine (please specify for a certain colour)
- Permanent shelf life
- Provides protection of documents and paper in an EPA

Meets the Following ESD Standards & Regulations:

RoHS compliant

REACH compliant

CE approved

IEC 61340-5-1

| Properties | Typical Values |
|-----------------------|------------------------------|
| Surface Resistance | $10^6 - 10^9$ Ohms |
| Triboelectric Voltage | <100V |
| Decay Time | 1000V-100V <1.0S |
| Material | ESD PVC (Polyvinyl Chloride) |
| Colour | Transparent |
| Size | A4 |

Eliminate Costly Static Damage...

Whether you are experiencing unacceptable levels of damage in transit, need a specific cleanroom solution or simply don't know which ESD safe equipment is best for you, we can help!
