

ESD L Shape Document Holder (Pack of 5)

DOCWA4

Description

ESD L Shape Document Holder from Bondline is made from a flexible ESD polypropylene (PP) for the safe use in Electrostatic Protected Areas (EPA). The material is permanent static-dissipative with a permanent shelf life. Great for storing paper files and any document, minimising the risk of electrostatic discharge to static sensitive components. ESD L Shape Document Holders are transparent and can be recycled. They are A4 in size and can store A4 or smaller sized documents. Supplied in a pack of 5. The holders feature an ESD protective symbol printed in yellow on the front corner.

Key Features

- Surface Resistance: $10^{(6)}$ – $10^{(9)}$ Ohms
- Material: ESD Polypropylene (PP)
- Permanent shelf life
- Pack of 5 A4 wallets
- Colour: Transparent
- Recyclable
- Features yellow ESD protective symbol
- Good to use where loose paper is not permitted
- Provides protection of documents in a static controlled area
- Compliant according to IEC-61340-1-5 International Standard

Meets the Following ESD Standards & Regulations:

RoHS compliant

REACH compliant

CE approved

IEC 61340-5-1 compliant

Properties	Typical Values
Surface Resistance	$10^{(6)}$ – $10^{(9)}$ Ohms
Triboelectric Voltage	<100V
Decay Time	1000V-100V <1.0S
Material	ESD Polypropylene (PP)
Colour	Transparent
Size	A4

Eliminate Costly Static Damage...

Whether you are experiencing unacceptable levels of damage in transit, need a specific cleanroom solution or simply don't know which ESD safe equipment is best for you, we can help!
