

Staticide Wipes

SW12

Description

Staticide® wipes are the ideal anti-static applicator for keeping electronics and equipment clean and static-free. Staticide® wipes have the same long-lasting protection against static as our Staticide® topical liquids, but offer a one-step cleaning and static control solution.

Unlike some anti-stats, Staticide topicals and wipes are not dependent on humidity to be effective. Staticide® will meet MIL-B-81705 for static decay even in dry conditions and low humidity. Staticide® anti-static wipes are safe to use around electronics, and since Staticide® will prevent dust buildup and dust attraction, computer and laptop screens will stay clean longer just by wiping the plastic housing (avoid wiping directly on screen). Staticide® wipes can also be used on industrial machinery and parts, and they are great to use in tight spaces.

Key Features

- Meets MIL-B-81705 for static decay even in dry conditions and low humidity.
- Ideal for use on hard surfaces such as plastic, non-painted metal and glass.
- Helps prevent system interruptions and static discharge shocks.
- Individually wrapped in a foil pouch for long life.
- Long-lasting, non-toxic and biodegradable.
- Available in bulk packaging for less waste.
- One step cleaning and static control.
- Safe for all electronic equipment.
- Helps prevent dust build-up and attraction.
- Size: 5" x 8" individually wrapped wipes.
- 24 wipes per box.
- 12 boxes per case.
- Compliant to IEC 61340-5-1; MIL-B-81705; RoHS; REACH; CE

Standards & Regulations Met

RoHS

European Conformity

REACH

IEC 61340-5-1, MIL-B-81705

Directions

- 1) Tear open a 2" foil packet, unfold the Staticide® wipe, and polish surface for maximum cleaning and static control.
- 2) If streaking occurs, allow towelette to partially dry and re-wipe surface.
- 3) Avoid using on computer screens.
