

ESD Unisex Polo Shirts

KSPSB / KSPSG

Description

ESD Unisex Polo Shirts are made with a high quality static-dissipative knitted fabric for safe use in Electrostatic Protected Areas. Comfortable and lightweight, the polo shirts can be worn all year round or in warm environments. Our polo shirts are short-sleeved and feature one breast pocket, a black collar and two buttons. Available in grey and blue as standard in sizes small to 4XL. Custom logo embroidery and colours on request.

Key Features

- Made with a high quality static dissipative knitted fabric
- Suitable to wear in ESD protected areas
- Short-sleeved with a black collar and two buttons
- Features one breast pocket with ESD susceptible logo
- Crease-resistant
- Compliant to IEC-61340-5-1 standards
- 58% cotton, 39% polyester, 3% conductive yarn
- Custom logo embroidery and colours on request
- Available in blue or grey as standard
- Sizes range from small to 4XL

Care Maintenance of ESD Garments

- Washing temperature: *garments made of knitwear - 40°C
- Don't use bleaching agents, alkali, chlorine, disinfection
- Do not use softeners
- Ironing: 110°C (one point) for knitwear
- Drying: Tumble dry at low temperature
- Possibility of professional dry-cleaning (we recommend to make a test of dry-cleaning and check ESD properties)
- The surface of garments can be damaged due to contact with higher temperature
- Industrial laundry – we recommend to make a test of surface resistivity after industrial washing cycle (as we don't know chemicals in use)
- The durability of ESD properties is 50 washing cycles on condition that you keep above mentioned instruction

Properties	Value
Weight	155 g/m ²
Conformity	IEC-61340-5-1
Decay Time	< 2 seconds
Resistivity	10 ⁶ - 10 ⁷ Ohms
Composition	58% cotton 39% polyester + 3% conductive yarn

Sizes (**For ESD Polo Shirts)			
Size (CM's)	Width After Wash (A)	Chest Perimeter After Wash (B)	Length After Wash (C)
XS	41	82	62
S	44	88	62
M	47	94	66
L	51	102	68
XL	54	108	70
XXL	58	116	73
3XL	61	122	76
4XL	67	134	78
5XL	72	144	82

****Toleration ± 5%. The sizes in the chart refers to garments before washing. Washing can cause up to 10% shrinkage.**

Suggestion: When you plan to order bigger quantity, we suggest to try the whole size assortment after washing to choose the right size.

Eliminate Costly Static Damage...

Whether you are experiencing unacceptable levels of damage in transit, need a specific cleanroom solution or simply don't know which ESD safe equipment is best for you, we can help!
