

ESD Waste Bin With Lid - 15L

WBINL15

Description

ESD Waste Bin With Lid 15L is manufactured from carbon-infused polypropylene, providing a comprehensive ESD safe solution to waste disposal. Featuring the ESD protective logo for easy identification, these bins are designed specifically for use in EPAs. Not affected by environmental temperature and humidity test results. Compliant according to the IEC-61340-5-1 International Standard.

Instructions

1. Placed on an ESD floor or ESD floor mat, these bins will ensure that the ESD path to ground is maintained.
2. Use anti-static bin liners with these bins to ensure that no static charge is generated.

Specification	Value
Size	290 x 300 x 210mm (LxWxH)
Volume	15L
Colour	Black
Material	ESD Polypropylene (PP)
Surface Resistance	$>10^6$
Friction Voltage	$<100V$
Decay Time	$1000v/100v <1.0s$

15L

Scope of Application

- PCB, LCD and LED module factories;
- Semiconductor production process;
- Optoelectronic industry;
- Food industry;
- Medical industry, etc.

ESD Standards & Regulations Met:

 RoHS Compliant  REACH Compliant  IEC-61340-5-1 Standard  European Conformity

Eliminate Costly Static Damage...

Whether you are experiencing unacceptable levels of damage in transit, need a specific cleanroom solution or simply don't know which ESD safe equipment is best for you, we can help!
