

ESD Waste Bins With Lid - 20L, 40L, 60L

WBINL, BLNR

Description

High-quality ESD waste bins with lid made of ESD polypropylene, for safe use in a static protected area. These waste bins allow for the safe disposal of waste without generating any static charge and are designed specifically for use in EPAs. Featuring a silk screen print of ESD protective logo for easy identification. Easy to clean and are available in 3 size options including 20, 40, 60 Litres. Ideally the bins are to be placed on an ESD floor or ESD floor mat to ensure a path to ground; anti static bin liners will also help ensure no static charge is generated.

Product Code	Description	Capacity
WBINL20	ESD Waste Bin 325 x 225 x 450mm with lid	20L
WBINL40	ESD Waste Bin 410 x 280 x 600mm with lid	40L
WBINL60	ESD Waste Bin 440 x 310 x 750mm with lid	60L
BLNR	Pink Anti Static Bin Liner for WBINL20 bin	N/A
BLNRL40	Pink Anti Static Bin Liner for WBINL40 bin	N/A
BLNR60	Pink Anti Static Bin Liner for WBINL60 bin	N/A

Specifications

Material	ESD Polypropylene (PP)
Colour	Black
Surface Resistance	$10^{(6)} - 10^{(9)}$
Friction Voltage	<100V
Decay Time	1000v/100v less than 1.0s
Capacity	20L 40L 60L (other sizes available on request)
Printing	Yellow silk screen print ESD logo and lid instruction
Standards	EN 61340-5-1

ESD Standards & Regulations Met:

RoHS Compliant

REACH Compliant

IEC-61340-5-1 Standard

European Conformity

Eliminate Costly Static Damage...

Whether you are experiencing unacceptable levels of damage in transit, need a specific cleanroom solution or simply don't know which ESD safe equipment is best for you, we can help!
