General Purpose Staticide Anti-Static Spray

2001 / 2003

Description

General Purpose Staticide Anti-Static Topical is easy to use and highly effective in controlling electrostatic charges in industrial manufacturing and static-sensitive environments. As a key component in any static control program, it is non-toxic, non-flammable, and non-staining. This ready-to-use solution formulated specifically for non-porous surfaces is ideal for eliminating static on plastic parts, equipment, and rubber. With a similar viscosity to water, it can be applied in various ways such as spraying, wiping, or dipping. General Purpose Staticide can be used for revitalising anti-static mats that have lost their dissipative properties.

Key Features

- Formulated for non-porous surfaces.
- Exceeds MIL-B-81705 and NFPA-56A electrostatic decay criteria.
- Meets requirements for topical anti-stats as listed in the Military Handbook DOD-HDBK-263.
- Proven effective in relative humidity below 15%.
- Decays static in less than 2 seconds.
- Surface resistance between 10^(9) - 10^(10) ohms.
- One gallon covers approximately 2000 sq.ft. per gallon.
- Lasts from weeks to months depending on application.

Applications

- Dust attraction.
- Damage potential to sensitive electronics components and subassemblies.
- Data errors, paper jams, and other office machine glitches.
- Jamming or slipping of paper, plastics, and other materials during printing, packaging, and converting.
- Ignition of combustible vapour, dust, and solvents , causing fire or explosion.
